Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner indicated to applicant that independent claims 1 and 20 were in condition for allowance but that a new matter issue was present in applicant's amendment dated 7/19/2010. Specifically, applicant added new language in the specification and claims which states that the 'shear-cutting edges' are 'acute'. Applicant stated that basis for this language can be found in Figure 2. Examiner disagreed with this assertion and therefore requested to eliminate the word 'acute' from claims 1, 20, and the specification via examiner's amendment. Applicant agreed. Consequently, the application is now in condition for allowance..
